10
Close drip tape (D) with tape end closures (H) starting with row closest to water source

11
Tape couplings (J), hose couplings (I), and mistake hole plugs (K) are included for repairs.

RECOMMENDED ITEMS

CONTROLLERS AND TIMERS

Irrigation-Mart offers a variety of controllers and hose end timers to help automate your irrigation system. We carry mechanical timers that do not require batteries as well as battery operated models that can be programmed for full automation. We also carry units with Bluetooth and Wifi capabilities.

INJECTORS AND FERTILIZERS

We offer canister, venturi, and water driven chemical injectors as well as water soluble fertilizers. Our featured Savvyject is a great addition to our kit. Its compact design can be used with a wide range of chemicals and fertilizers.

IRRIGATION-MART TWINE

Irrigation-Mart offers a durable poly UV resistant tying twine for field crops. This twine can be used for tomatoes, peppers, hemp, and any other vegetable or horticultural crops that require trellising.

PLASTIC MULCH AND GROUND COVER

We offer woven ground cover as well as plastic mulch film to help control weeds in your garden, orchard, greenhouse, and nurseries. Our varieties include UV protected (non-degradable), photo and bio degradable, black, and black and white. These products come in many different lengths, widths, and thickness to choose from. We also carry plasticulture equipment to help automate the installation of plastic mulch and ground cover.
