

## Battery Operated Smart Controller

Completely waterproof and able to operate in harsh environments, the 710A series battery operated controller can be installed above ground or below grade on a wide range of valves. Powered by two AA alkaline batteries that last up to three years, the 710A series controller offers installation flexibility and simple programming for easy operation and maintenance. It includes seven buttons with a large, easy-to-read LCD screen and icon-based programming with five start times per day in weekly or cyclical mode.

### Convenient

- Simple one-station model
- Intuitive and easy-to-set irrigation control
- Compact design allows for versatile installation options
- Powered by two AA batteries

### Waterproof

- IP68 Protected
- 100% Waterproof
- 100% Dustproof

### Built to last

- Durable construction both below grade (in a valve box) or above grade with valve or box mounting
- With a battery life of up to three years

# 710A SERIES
